Part II.

SUBSTANCE OF INTERVIEW DESCRIBING THE GENERAL NATURE OF WHAT WAS DISCUSSED:
Examiner called and informed Mr. James E. Ledbetter to change the title of the non-patent literature in the Information Disclosure Statement form PTOL 1449 received on January 13, 2010 which is in Japanese language to be corrected and read as that of the English translation appearing in the documents.
For example, the Japanese titles:
"MIMO Channel ni Okeru ZF to MLD Heiyo Shita Group Detection ni Kansuru Kento: and "Kukan Taju ni Machiuru MIMO-MLD no Enzanryo Sakugenhō no Ichikento—" should be corrected to read as --- "Study on Group Detection Using ZF and MLD Algorithm in MIMO signal" and "Computational Complexity Reduction of MIMO_MLD for space Division Multiplexing" respectively.
As to the Japanese patent applications numbers JP 2003-124907, JP 6-164665, 2003-525537 and 1-0136046 which were not available to the Examiner before are now available and will be considered once the corrected new IDS form PTO 1449 is received.

Part III.

☒ It is not necessary for applicant to provide a separate record of the substance of the interview, since the interview directly resulted in the allowance of the application. The examiner will provide a written summary of the substance of the interview in the Notice of Allowability.

☐ It is not necessary for applicant to provide a separate record of the substance of the interview, since the interview did not result in resolution of all issues. A brief summary by the examiner appears in Part II above.
